KNOW ABOUT US

VISION

Our Vision is to establish Innovative Institute of Excellence in Aesthetics (IIEA) as a nationally and internationally recognized center of excellence in aesthetic, functional, and regenerative gynecology education. We aim to set new benchmarks in clinical training, academic quality, and ethical medical practice.

MISSION

Our mission is to deliver comprehensive, practical, and evidence-based training that equips medical professionals with the skills, confidence, and clinical expertise required to excel in aesthetic, cosmetic, functional, and regenerative gynecology. Through expert-led education, hands-on clinical exposure, and structured learning modules, IIEA is committed to integrating the latest technologies, globally accepted treatment protocols, and ethical medical practices while supporting doctors in practice development, branding, and sustainable professional growth, ensuring the highest standards of patient safety, clinical excellence, and long-term success.

COURSES IN COSMETIC GYNECOLOGY

Our institution provides training in all available non-surgical & surgical treatments for functional and aesthetic concerns of female intimate parts like size & shape, stress urinary incontinence, vaginal laxity, vaginal dryness, loss of libido, recurrent vaginal infections, sexual enhancement and many others. We have all scientifically proven technologies and treatments with expertise in reconstructive surgeries for aesthetic vulvo-vaginal concerns. Our faculties have extensive experience of 15 years in their specialities.
